Dear Sir/Madam:

Please see the following information regarding obtaining a Certificate of Registration for a Fishing Vessel. Please ensure that you include all of the required information, highlighted below.

If you wish to obtain a Certificate of Registration you must complete an application form.

- For local vessels - Complete Form 1 - Application for Registration of Local Fishing Vessel
- For foreign vessels - Form 6 - Application for Registration of a Foreign Fishing Vessel.

The local designation is determined by the citizenship of the individual applicant or if it is a company applying, more than 51% of the company is owned by BVI Islanders.

In addition, you must submit the following to complete your application:

- Coastal Craft Licence/Certificate of Inspection or other Vessel Registration
- Proof of Citizenship [copy of ID (passport) of the owner]
- Photos of the Vessel
- Photos of the gear on the vessel
- Complete Vessel Checklist

We will contact you when the process is complete, so that you can make payment and collect your registration.

Registration is valid for one year. Registration of your vessel(s) allows your guests to purchase temporary pleasure fishing licences to fish from your vessel(s).

Sincerely,

Conservation and Fisheries Department
Government of the Virgin Islands
